

Flat Tire Checklist

Go Ape Roadside Assistance · 1-877-GOAPE-02 · goaperoadside.com

Print this checklist and keep it in your glove box. In an emergency, work top to bottom.

- Reduce speed gradually — do not slam the brakes
- Signal and move to the right shoulder
- Activate hazards and set the parking brake
- Inspect the tire only if you can stand well clear of traffic
- Locate your spare, jack, and lug wrench (or call for mobile tire replacement)
- Loosen lug nuts before jacking the vehicle
- Jack at the manufacturer's designated lift point only
- Hand-tighten lug nuts in a star pattern, then torque to spec
- Drive under 50 mph on a compact spare
- Replace or repair the damaged tire within 24 hours
